Openness in Education

Open Institutions and Courses

Open Educational Resources

Open Licenses

Open Institutions and Courses

Walter Perry, "Open University: A Personal Account by The First Vice-Chancellor", Open University Press, 1988.
Open Educational Resources

"digitised materials offered freely and openly for educators, students and self-learners to use and reuse for teaching, learning and research".

From OECD Centre for Educational Research and Innovation, 2007

From: CPCPSN3011 - Plan the layout of a residential sanitary plumbing system and fabricate and install sanitary stacks

Open Licenses

Creative Commons licenses

Curated or crowd-sourced learning resources

Wikiversity: learning resources, learning projects, and research for all.

Using Open Resources is Hard Work

Where do you find them?
Is the licence compatible?
Are they suitable?

But a useful exercise for the student:
build an open learning module.
